

# AKIF AZHER QURESHI

New York, NY | P: +1 201 803 8022 | [akifazherq@gmail.com](mailto:akifazherq@gmail.com)

## EDUCATION

---

### PACE UNIVERSITY

Master of Science in Computer Science

Cumulative GPA: 3.91/4.0

Relevant Coursework: Algorithms and Data Structures; Database Managements Systems; System Design; Mobile Web Development

New York, USA

Expected Jan 2026

### Nawab Shah Alam Khan College of Engineering and Technology

Bachelor of Engineering in Information Technology

Cumulative GPA: 7.05/10

Core focus: Web Application Development, Cloud Computing, Software Engineering, Database Systems

Hyderabad, India

Jul 2023

## PROFESSIONAL EXPERIENCE

---

### Pantech E-learning Pvt Limited

Software Development Instructor

Hyderabad, India

Jan 2023 – Nov 2023

- Mentored and taught programming languages including Java, JavaScript, and Python
- Analyzed and developed 20+ software and web applications with students, providing practical insights
- Created free online teaching materials for Java, JavaScript, React.js, HTML, CSS, used by 700+ students
- Guided graduate and undergraduate students for their college major projects

## PROJECTS

---

### ORDELO | Recipe & Grocery Delivery Platform

Jan 2025- May 2025

[ordelo.org](https://ordelo.org)

- Led technical development of end-to-end platform for recipe management and grocery delivery from local vendors using MongoDB, React, Node.js, and Express
- Implemented state management with React Context API and custom hooks, reducing code complexity by 40%
- Engineered intelligent caching system that reduced API calls by 60% and enabled offline functionality
- Architected front-end React components and architected MongoDB schema optimized for nested recipe documents and multi-vendor ordering

### ETHER-WALLET | Ethereum Wallet Interface

Jul 2023

<https://ether-wallet-green.vercel.app/>

- Built React.js front-end with Tailwind CSS, decreasing page load times by ~40% through Vite optimization
- Integrated Ethers.js to enable wallet connections and transactions, testing 100+ transactions on testnets
- Collaborated to write and deploy solidity smart contracts with 90%+ test coverage using Hardhat
- Reduced average transaction confirmation time from ~15 to ~10 seconds through optimized contract calls

## PERSONAL PORTFOLIO WEBSITE

[akifq.com](https://akifq.com)

- Crafted responsive portfolio website using HTML5, CSS3 and vanilla JavaScript, implementing mobile-first design with clean, minimalist approach for enhanced readability
- Created modular CSS architecture with strategic media queries at 700px and 1000px breakpoints, semantic markup, and accessible hamburger menu navigation

## TECHNICAL SKILLS AND LINKS

---

- <https://github.com/AKIFQ>
- **Programming:** Java, JavaScript, Python
- **Frontend:** HTML, CSS, React.js, Tailwind CSS, Ionic
- **Backend:** Node.js, Express.js, GraphQL REST API design
- **Databases:** SQL, PostgreSQL, MongoDB, Redis
- **Tools:** Git, GitHub, Vite, Figma
